Hi Frank,

Please see the update information in red (below).

- Description and status of Site characterization or cleanup work (completed during past quarter or ongoing work).
 - Groundwater assessment in progress.
 - Ten monitoring wells installed and developed the week of 2/19.
 - Groundwater and surface water sampling being conducted 03/05 and 03/06.
- A list of pending opinion requests to Ecology and expected date for next request for Ecology opinion.
 - No pending opinion requests.
 - Expected data of next request for Ecology opinion is to be determined. Next steps will be driven by analytical results of groundwater assessment.
- Summary of dates and titles of documents submitted to Ecology for review in the last quarter.
 - Groundwater Assessment Work Plan submitted 01/16/2024. Ecology review complete.
- Type of documents and opinion requests planned for submittal to Ecology during the next quarter.
 - Documentation and opinion requests will be dependent on analytical results. We will provide an update upon receiving analytical results.
- Any updates to the project schedule showing the previously mentioned activities and milestones.
 - Groundwater assessment in progress. Updates on schedule will be based upon analytical results and will be forthcoming.
- A description of schedule delays or changes from the prior quarter and reasons for those changes.
 - None
- Changes in key project team personnel.
 - Consultant change: Formerly: TRC; Now: J.S. Held, LLC
 - None (same project team)
- Anticipated changes at the Site, such as property ownership, changes to potential future use, new or obsolete access restrictions, or anything that could affect the cleanup.

- None

As mentioned, we are currently performing the groundwater assessment per the Groundwater Assessment Work Plan. I'll be in touch to provide an update when we receive analytical data in the next couple of weeks.

Thanks,
Nate

CAUTION EXTERNAL

Dear Expedited VCP Site Representative,

Per our guidance for the expedited VCP process, quarterly progress reports are due on March 10. Since that falls on a weekend, the due date will be Monday, March 11, 2024.

If you believe you have received this email mistakenly, please let me know and I will remove you from this email list.

This progress report can be made via email, and should include responses to each of the following from our guidance. We recommend that you simply insert your response below each of the following bullets in your email reply.

- Description and status of Site characterization or cleanup work (completed during past quarter or ongoing work).
- A list of pending opinion requests to Ecology and expected date for next request for Ecology opinion.
- Summary of dates and titles of documents submitted to Ecology for review in the last quarter.
- Type of documents and opinion requests planned for submittal to Ecology during the next quarter.
- Any updates to the project schedule showing the previously mentioned activities and milestones.
- A description of schedule delays or changes from the prior quarter and reasons for those changes.
- Changes in key project team personnel.
- Anticipated changes at the Site, such as property ownership, changes to potential future use, new or obsolete access restrictions, or anything that could affect the cleanup.

Thanks, Frank
