Katie, I apologize for the delay. Steve Haubner just briefed me on the intent.

Please let this email suffice as the City of Longview's permission to access the site to conduct the requested testing as outlined. The business hours of the site are Monday- Thursday 7:00 am. to 4:00 pm.

Kind Regards,

**Chris Collins**  
Assistant Public Works Director

Hi Justin,

I hope you had a nice weekend. I was following up to see where you are with this. The last time we spoke on the phone you said you would provide the cleanup information to a contact in another department, but I was not provided their name. I have not heard from you or this other point of contact from Longview. Could you please let me know the status of the access agreement and what is causing the delay? As a reminder, to approve the work a simple response to this email is adequate, Ecology does not require a signed access agreement returned, the access agreement is for your records.

Thank you,

**Katie McNulty**

Hi Justin,

Thank you for finding the correct person to coordinate the work. I've attached the access agreement and a Site map below. The tanks in the map have been removed, however, additional confirmation sampling still needs to occur. To approve the work a simple response to this email is adequate, Ecology does not require a signed access agreement returned, the access agreement is for your records.

Thanks,
