---

Katie:

As we discussed, I have updated the address for Facility/Site ID 99775267 to 706 30th Ave, Longview, to match the address currently in use for location of the Longview Parks Maintenance Department site. I also updated the address in the UST database application.

I will upload this email to the cleanup and UST sites to explain the difference in addresses between earlier site documents and more recent work at this site.

Thanks.

Frosti

**Subject:** Address Change in ISIS

Hi Frosti,

I hope you enjoyed your sunny weekend!

I was hoping you could help me update something on ISIS. I am working on a [site \(Longview Park Dept\)](#) where the address is incorrect in ISIS.

The current address listed is: 2920 Douglas St Longview, 98632-1731 Cowlitz  
The address of the actual site is: 706 30th Ave, Longview, WA 98632

The first address is the owner's address (adjacent to the west of the site) but the parcel containing the contamination is listed above.

Thanks,

**Katie McNulty**
