Dear Amy Sikora:

Thank you for submitting the revised Sub-Slab Soil Investigation Work Plan (plan) for review to the Department of Ecology (Ecology).¹ Ecology has no further comments on the plan. **Therefore, please consider the plan to be approved.**

The table in Section 4.0 of the plan does not include values for soil protection of groundwater, saturated zone (saturated). Please note that during data evaluation, Ecology will also compare soil sample results for heptachlor, heptachlor epoxide, and 2,4-dichlorophenoxyacetic acid (2,4-D) to applicable saturated values for sample depths that might be in the saturated zone for part of the year.
