Searching for Sales

For your convenience, and for greater transparency, the Assessor's office offers three separate sales listings:

- **Owner History** displays all transfers of ownership for the selected parcel.
- **Sales** returns a list of all sales within the subject neighborhood that carry a sale price greater than \$0. Many of these sales have not been verified and are not considered valid, arms length sales for assessment purposes. They include transfers between banks, sales between relatives and business partners, estate sales, etc. that do not typically represent market prices.
- **Value Report** includes a list of valid, arms length sales that were used in determining values for assessment purposes.
