Re: Recommendation for Monitoring

Dear Treasure Mitchell:

Thank you for contacting the Washington State Department of Archaeology and Historic Preservation (DAHP) regarding the above referenced proposal. This action has been reviewed on behalf of the State Historic Preservation Officer (SHPO) under the provisions of the Model Toxics Control Act (WAC 173-340-815). Our review is based upon documentation contained in your communication.

We concur with the area affected as indicated in your communication of March 22, 2024, and with the proposed course of action (monitoring by a 36 CFR 61 qualified archaeologist).

Please note that these comments are only regarding archaeology; I note that Ecology has been consulting with DAHP (specifically, Maddie Levesque) on impacts to the Built Environment. Please continue consulting regarding those impacts as necessary.

Also, we appreciate receiving any correspondence or comments from concerned tribes or other parties that you receive as you consult for this project. These comments are based on the information available at the time of this review and on behalf of the State Historic Preservation Officer in conformance with Executive Order 21-02.

Thank you for the opportunity to review and comment. If you have any questions, please feel free to contact me.

Sincerely,

David E. Witt, Ph.D.  
Assistant State Archaeologist  
(360) 972-4616
