Re: VCP Project Status Request for the following contaminated Site:

- **Site Name:** Arco 05923
- **Site Address:** 116 US Hwy 12, Chehalis, WA, 98632 Lewis County
- **Facility/Site ID:** 97679498
- **Cleanup Site ID:** 11287
- **VCP Project ID:** SW1434

Dear Brad Jackson:

The Department of Ecology (Ecology) appreciates your decision to clean up the Arco 05923 Masad Nicola facility (Site) independently. In December 2022, you requested Ecology's opinion on your independent cleanup effort and Ecology provided their opinion in May 2023. Since then, you have submitted a semi-annual groundwater monitoring report in March 2024 with a short description of the installation of three new monitoring wells and one boring. This letter requests information on the status of your cleanup and your continued interest in the Voluntary Cleanup Program (VCP).

To continue cleanup efforts under the VCP, please provide the following information.

Request for Information

Please submit the following information to Ecology within 30 days of the date of this letter:

- Cleanup status report.
- Any reports documenting the cleanup.
- Plan and schedule for completing the cleanup.
- All required Electronic Data per [Policy 840](https://fortress.wa.gov/ecy/publications/documents/1609050.pdf).¹

¹ <https://fortress.wa.gov/ecy/publications/documents/1609050.pdf>

Next Steps

Based on your response, Ecology will decide whether to continue providing you services under the VCP. We will notify you of our decision to terminate the VCP agreement in writing. Please note that we will terminate the Agreement governing the project if you do not respond to this request within 30 days of receipt.

Contact Information

For more information about the VCP and the cleanup process, please visit our [VCP webpage](#).²
If you have any questions about this transmittal, you may contact me at 564-669-4866 or thomas.praisewater@ecy.wa.gov.

Sincerely,

Thomas Praisewater, P.E.
