Dear Bill Preston:

The Washington State Department of Ecology (Ecology) has prepared the enclosed memorandum “Interstate 82 Exit 33A Yakima City Landfill: Response and Resolution to Comments Regarding Groundwater and Surface Water PCULs” dated July 26, 2024.

This memorandum represents a continued effort to come to agreement regarding Preliminary Cleanup Levels (PCULs) at the Interstate 82 Exit 33A Yakima City Landfill Cleanup Site.

Ecology believes this memorandum concludes the discussion regarding PCULs for groundwater and surface water and can begin evaluating soil concentrations and PCULs. These were not done concurrently because the calculated PCULs for soil will be dependent on those that are agreed upon for both groundwater and surface water.

Sincerely,

Jennifer Lind
