External Email

Hi Frank,

Please see the update information in red (below) for the Former Brookdale Golf Course Site (EVCP Site ID XS0016).

- Description and status of Site characterization or cleanup work (completed during past quarter or ongoing work).
 - Groundwater assessment in progress.
 - Additional well installation planned for October 17 and 18.
- A list of pending opinion requests to Ecology and expected date for next request for Ecology opinion.
 - No pending opinion requests.
 - Expected data of next request for Ecology opinion is to be determined. Next steps will be driven by analytical results of groundwater assessment.
- Summary of dates and titles of documents submitted to Ecology for review in the last quarter.
 - None.
- Type of documents and opinion requests planned for submittal to Ecology during the next quarter.
 - Documentation and opinion requests will be dependent on analytical results. We will provide an update upon receiving analytical results.
- Any updates to the project schedule showing the previously mentioned activities and milestones.
 - Groundwater assessment in progress. Updates on schedule will be based upon analytical results and will be forthcoming.
- A description of schedule delays or changes from the prior quarter and reasons for those changes.
 - None
- Changes in key project team personnel.
 - None (same project team at J.S. Held)
- Anticipated changes at the Site, such as property ownership, changes to potential future use, new or obsolete access restrictions, or anything that could affect the cleanup.

- None

We have the well installations to support a covenant on a portion of the Site planned for October 17 and 18. When results are available, we will discuss the level of reporting and timing to support site closure. We are aware that a DCA will be included in that documentation.

Any questions, please let us know.

Eric
