Re: Interstate 82 Exit 33A Yakima City Landfill – Updated Preliminary Cleanup Level Memorandum:

- **Site Name:** Interstate 82 Exit 33A Yakima City Landfill
- **Site Address:** 805 N. 7th Street, Yakima
- **Facility/Site ID No.:** 1927
- **Cleanup Site ID No.:** 3853
- **Agreed Order No.:** DE 15861

Dear Bill Preston:

The Washington State Department of Ecology (Ecology) has prepared the attached memorandum “Interstate 82 Exit 33A Yakima City Landfill - Updated Preliminary Cleanup Levels” dated September 30, 2024.

Please note that this is an update and supersedes the September 22, 2023 memorandum: “Interstate 82 Exit 33A Yakima City Landfill Preliminary Cleanup Levels.”

The memorandum represents a response from the Washington State Department of Ecology, Toxics Cleanup Program (Central Regional Office) to provide support for the development of preliminary cleanup levels (PCULs) for hazardous substances and mixtures that have been tested for at the Interstate 82 Exit 33A Yakima City Landfill Cleanup Site.

Purpose of the Update

In response to the original September 22, 2023 memorandum, the City of Yakima’s consultant, Landau Associates, Inc., was able to provide additional information and/or clarification to support the revisions referenced or discussed in the attached updated memorandum.

Bill Preston
City of Yakima

Future Evaluation of PCULs and COPCs

This updated memorandum represents our current understanding of the Site but may be modified further until the Cleanup Action Plan has been finalized.

Ecology expects these values to continue to change over time as additional sampling and monitoring information increases our conceptual understanding of the Site, and Cleanup Levels and Risk Calculation (CLARC) tables are periodically updated.

Sincerely,

Jennifer Lind
Cleanup Project Manager
Toxics Cleanup Program
Central Regional Office
