Re: Third Quarter 2024 Progress Report

TECT Aerospace Cleanup Site

Everett, Washington

Landau Project No. 0222057.050

Dear Mr. Unruh:

Landau Associates, Inc. (Landau) prepared this progress report for the TECT Aerospace Cleanup site (Site), at the request of the Snohomish County Airport (Airport), to address Snohomish County's obligation under Section VII (C) of Agreed Order No. DE 21781 (AO) to provide progress reports to the Washington State Department of Ecology (Ecology). This report summarizes progress during the third quarter (July through September) of 2024, and activities anticipated for the fourth quarter (October through December) of 2024.

The following activities were conducted in the third quarter of 2024:

- Prepared for and conducted soil gas sampling, quarterly groundwater elevation measurements, and semiannual Site-wide groundwater sampling as directed by the AO Remedial Investigation (RI)/Feasibility Study (FS) Work Plan, including coordination with vendors, analytical laboratories, and Airport representatives and tenants
- Ongoing soil, groundwater, and soil gas data management activities associated with AO RI field activities, including laboratory coordination, analytical report review, data validation, and tabulation
- Conducted meeting with Ecology and Airport representatives on August 27, 2024, to discuss preliminary AO RI results and proposed next steps
- Ongoing updates to Site figures and tables to support review and evaluation of RI progress, including geologic cross sections, boring logs, and monitoring well as-built diagrams
- Ongoing preparation of an interim AO RI data report presenting investigation results and proposed activities for additional investigation at the Site.

The following activities are anticipated for the fourth quarter of 2024:

- Prepare for and conduct quarterly groundwater elevation measurements, and semiannual Sitewide groundwater sampling, including coordination with vendors, analytical laboratories, and Airport representatives and tenants
- Finalization of an interim AO RI data report, including ongoing discussion with the Airport and Ecology regarding next steps for additional investigation activities
- Ongoing data evaluation and RI reporting activities, including finalizing soil boring logs, monitoring well as-built diagrams, geologic cross sections, and updates to the conceptual Site model.

Deviations from the AO Scope of Work and Schedule:

• None to report.

Thank you for your continued support with the ongoing cleanup efforts at the TECT Aerospace Cleanup Site. Please contact Andrew Rardin with the Airport, or Jerry Ninteman of Landau, if you have any questions regarding the activities described above.
