Re: Munitions and Explosives of Concern (MEC) Site Inspection at Naval Base Kitsap Bangor:

- **Site Name:** US Navy Base Kitsap Bangor
- **Site Address:** 1035 Trident Avenue, Silverdale, WA 98315
- **Facility/Site No.:** 1635885
- **Cleanup Site ID No.:** 17019

Dear Janice Horton:

The Department of Ecology (Ecology) has reviewed the *Final Basewide Site Inspection Addendum Report for Munitions and Explosives of Concern at Naval Base Kitsap Bangor* (Tetra Tech, June 2024). Ecology **concurs** with the United States Navy (USN) no further action (NFA) determination for the following sites:

UXO 02 (Site CC)
UXO 08 (Site NN)
UXO 09B (Site B)
UXO 10 (Site 12)
UXO 11 (Site 14)
UXO 11B (Site 8)
UXO 12 (Site HH)

UXO 13 (Site 4)
UXO 14 (Site JJ)
UXO 15 (Site KK)
UXO 17B (Site 1)
UXO 17C (Site BB)
UXO 17D (Site 13)

The referenced report, which documents inspections of the sites listed above, identified no MEC or material potentially presenting an explosive hazard (MPPEH) at either the surface or subsurface.

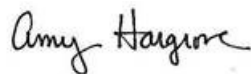

Janice Horton

During the preparation of the Quality Assurance Project Plan (QAPP)¹, additional document research led to the exclusion of UXO 09B (Site B) and UXO 17D (Site 13) from the site inspection (SI) field investigation.

An earlier Phase 1 SI Report² was reviewed by Ronnie Johnson in October 2023, and he agreed with its findings. Michael Cronin, the Interim Site Manager, has also reviewed both SI reports and supports the Navy's conclusions.

If you have any questions, please feel free to contact Forrest Malone, Site Manager, at (564) 999-3528, or by email at forrest.malone@ecy.wa.gov.

Sincerely,

Amy Hargrove
Unit Supervisor
HQ Land Cleanup Unit
Toxics Cleanup Program
