Dear Angela Hill:

Thank you for your email. Ecology provided you with a formal letter on November 21st, 2024. You then requested Ecology to provide you with a follow-up email, which we provided December 5, 2024. In summary, this site received No Further Action from Ecology on November 8, 2010, and the other on December 13, 2012. As stated in your email, these No Further Actions still apply and the additional construction activities that took place (removal of the tanks) do not change that status.

Ecology has received and reviewed the ZipperGeo Report, dated November 8, 2024.

Ecology has responded very timely to every request submitted by your office. You should receive this response this on December 20, 2024.

Please contact me if you have any questions or concerns.

Sincerely,
