**Re: Schedule update for the following site:**

**Site Name:** Jeld Wen  
**Site Address:** 300 W Marine View Drive, Everett, WA 98201-1030  
**Cleanup Site ID:** 4402  
**Facility Site ID:** 2757  
**Agreed Order No.** DE 5095

Dear Tom Graham:

Per your monthly field progress report dated January 15, 2025, the Jeld Wen team received validated sediments data on January 8, 2025. Based on the schedule from the Second Amendment to Agreed Order (AO) No. DE 5095, the draft Pre-Remedial Design Investigation (PRDI) Data Report is due to Ecology 90 days following receipt of validated data (due April 8, 2025) and the Agency Review Draft Engineering Design Report (EDR) is due to Ecology 180 days following receipt of validated data (due July 7, 2025).

We look forward to the receipt of these draft documents and Ecology will strive for timely reviews after receipt. Please note that the AO does not specify Ecology review periods, and that tribal engagement is anticipated to be part of the EDR review process. Other entities may also have a role in reviewing the EDR.

Sincerely,

Frank P. Winslow, LHG
