**Subject: Former Chevron Bulk Plant No. 1001327 Monthly Progress Report – January 2025**

Dear Mr. Atkins,

On behalf of Chevron Environmental Management Company (CEMC) and King County, AECOM is submitting this January 2025 Monthly Progress Report (MPR) for the former Chevron Bulk Plant No. 1001327 (the Site) located at 1602 North Northlake Way, Seattle, Washington. Activities at the site are being conducted under a Consent Decree executed November 24, 1998 (No. 99-2-08621-1SEA) between Chevron, King County (Metro), and the Washington State Department of Ecology (Ecology).

During the month of January 2025, the following project activities were completed:

- Arcadis completed the Second Semi-Annual 2024 Groundwater Monitoring Report which has been sent to the County for their review prior to submission.
- AECOM reviewed the Response from Ecology to the Request for Modifications to the Groundwater Monitoring Plan which was received December 31, 2024 and updated the Monitoring Plan according to this response.

Activities to be completed in February 2025 include the following:

- Arcadis will submit the Second Semi-Annual 2024 Groundwater Monitoring Report to Ecology.

If you have any questions or comments, please contact me at 206.853.7428 or by email at [ashley.lunde@aecom.com](mailto:ashley.lunde@aecom.com).

Yours sincerely,

Ashley Lunde  
Project Manager
