Re: Substantial Completion Circle K Remediation Site 1461

Dear Mr. Myers,

This letter is to notify Ecology that Glacier Environmental Services Inc achieved substantial completion of the treatment system installation and 2-week startup at the Circle K Remediation Site located at 2350 24th Ave E. Seattle, Washington on February 28, 2025.

A site inspection with Kennedy Jenks and Glacier was conducted that day and determined that substantial completion has been met. We understand that we now have 30 days to complete any remaining punch list items and our completion report.

Please let me know if you have any questions. Thank you.

Sincerely,
Glacier Environmental Services, Inc.

Lauren Golembiewski
President
