Subject: Response to Preliminary Determination of Potential Liability for Release of Hazardous Substances – Weyerhaeuser Snoqualmie Mill

Dear Chris:

On behalf of Weyerhaeuser NR Company (“Weyerhaeuser”), I write to acknowledge receipt of your letter dated March 18, 2025, regarding the WA State Department of Ecology’s (“Ecology’s”) preliminary determination of potential liability for release of hazardous substances at Weyerhaeuser Snoqualmie Mill, 38800 SE Mill Pond Rd, Snoqualmie, WA 98065; cleanup site ID 10346, facility/site ID 73953138 (the “Snoqualmie Site”). Weyerhaeuser does not have reason to dispute the basic facts in your letter and, without admitting any liability, accepts its status as a potentially liable person (“PLP”) for the Snoqualmie Site. However, we wanted to share two additional facts that are important to Weyerhaeuser’s interaction with Ecology at this site moving forward:

- 1) Weyerhaeuser’s project contact for this matter moving forward will be Luke Thies, information listed below.
- 2) The proper Weyerhaeuser entity for this matter is Weyerhaeuser NR Company, a wholly owned subsidiary of Weyerhaeuser Company.

If you have any questions, please feel free to contact me.

Regards,

Luke Thies
Remediation Project Manager
