Subject: Progress Report – Second Quarter 2025
BNSF Former Maintenance and Fueling Facility
Skykomish, WA
Consent Decree No. 07-2-33672-9 SEA

Dear Mr. Bushnell,

On behalf of BNSF Railway Company (BNSF), Arcadis U.S., Inc. (Arcadis) is providing this Second Quarter 2025 Progress Report (Progress Report) for the BNSF Former Maintenance and Fueling Facility in Skykomish, Washington in accordance with Section XI of Consent Decree No. 07-2-33672-9 SEA (Consent Decree) dated October 19, 2007 between the Washington State Department of Ecology (Ecology) and BNSF. This Progress Report documents activities completed between April 1 and June 30, 2025 (Second Quarter 2025 [Reporting Period]).

On-Site Activities During Reporting Period

- April
 - Operations and maintenance of the biosparge system and belt skimmers was performed on April 18, 2025. The pump and treat system was tested and confirmed to be operational, in accordance with the draft *2023 Operation and Maintenance Manual Update for the Hydraulic Control and Containment System*.
 - No system shutdowns occurred.
- May
 - Shut down of biosparge system operation occurred on May 15, 2025 due to power interruption. The biosparge system was restarted on May 16, 2025.
 - Shut down of biosparge system operation occurred on May 22, 2025 due to power interruption. The biosparge system was restarted on May 29, 2025.
 - Operations and maintenance of the biosparge system and belt skimmers was performed on May 29, 2025. The pump and treat system was tested and confirmed to be operational, in accordance with the draft *2023 Operation and Maintenance Manual Update for the Hydraulic Control and Containment System*.
- June
 - Due to a low oil level observed in the biosparge blower, the biosparge system was shut down on June 4, 2025. An inspection of the biosparge system was conducted on June 6, 2025 and based on recommendations from the blower manufacturer, the blower remains off until the oil leak can be repaired. A representative of the blower manufacturer will perform repairs onsite in early July.

Mr. Tanner Bushnell
Washington Department of Ecology
July 15, 2025

- Site-wide groundwater monitoring was conducted between June 23 and June 27, 2025 in accordance with the 2011 Operation and Maintenance Manual (AECOM 2011) and the 2014 Operation and Maintenance Manual Addendum (Farallon 2014).

Deviations from Required Tasks During Reporting Period

- No deviations from the required tasks occurred in the Reporting Period.

Deviations from Cleanup Action Plan During Reporting Period

- No deviations from the Cleanup Action Plan occurred in the Reporting Period.

Raw Data Generated During Reporting Period

- Groundwater samples from the Second Quarter 2025 groundwater monitoring event were analyzed by ALS Environmental of Everett, Washington. Groundwater monitoring sample data will be provided in the Annual Long-Term Monitoring Report and Annual Hydraulic Control and Containment System Operations Report to be submitted in First Quarter 2026.

Planned Deliverables for the Upcoming Reporting Period

- National Pollution Discharge Elimination System Discharge Monitoring Reports for the Reporting Period will be submitted through Ecology's web portal by July 28, 2025. There was no discharge during the Reporting Period.

Draft Deliverables in Ecology Review

- *2023 Operation and Maintenance Manual Update for the Hydraulic Control and Containment System* submitted to Ecology on April 17, 2023.
- *2024 Annual Hydraulic Control and Containment System Operations Report* submitted to Ecology on March 31, 2025.
- *2024 Annual Long-Term Monitoring Report* submitted to Ecology on March 31, 2025.

Please contact me with any questions or comments regarding this quarterly progress report.

Sincerely,
Arcadis U.S., Inc.

Kyle Haslam
Project Manager
