Everett, WA 98206

**Re: Satisfaction of Agreed Order No. DE 22405 for the following Contaminated Site:**

**Site name:** Weyerhaeuser Mill A  
**Site address:** 3500 Terminal Ave Everett, WA 98201  
**Cleanup Site ID:** 2146  
**Facility/Site ID:** 1884322

Dear Erik Gerking:

Thank you for working with the Washington State Department of Ecology (Ecology) on Weyerhaeuser Mill A (Site). This letter provides written notification that the interim action required at the Site by Agreed Order No. DE 22405 (Order) under the [Model Toxics Control Act \(MTCA\), Chapter 70A.305 RCW](#)<sup>1</sup>, has been satisfactorily completed. The Order became effective on June 5, 2024. This letter also describes the next steps for the Site.

**Completion of Remedial Actions Required by the Order**

Ecology has determined the requirements of the Order have been satisfied. Ecology made this determination pursuant to Section IX Satisfaction of Order.

The remedial actions required by the Order are specified in Section VII Work to Be Performed. The Port of Everett was required to permanently seal a stormwater outfall, redirect stormwater from that outfall to the treatment area, and upgrade technology employed in the treatment area. After inspecting the Site and reviewing the supporting documentation, Ecology has determined the remedial actions required by Section VII have been satisfactorily completed.

---

<sup>1</sup> <https://app.leg.wa.gov/rcw/default.aspx?cite=70A.305>

### **Next Steps at the Site**

The Port must continue to work with Ecology's Water Quality department to monitor discharges, maintain permit conditions, and continue completing the remedial actions required by Agreed Order No. DE 8979.

Thank you for your efforts toward working to clean up the Site. Should you have any questions, please do not hesitate to contact Ecology's cleanup project manager for this Site, Ryan Hardwick, at 360-280-3895 or [ryan.hardwick@ecy.wa.gov](mailto:ryan.hardwick@ecy.wa.gov).

Sincerely,

Erik G. Snyder  
Section Manager  
HQ Cleanup Section  
Toxics Cleanup Program
