TO: TCP Files for Champion International Ballard Upland and Sediment sites

FROM: Donna Kirkman, Toxics Cleanup Program

SUBJECT: Reorganization of Sites and Files

Ecology's Integrated Site Information System (ISIS) database indicated two cleanup sites associated with two Facility/Site records:

- Champion Intl Ballard Upland, FSID 2199, CSID 1147
- Champion Intl Ballard Sed, FSID 2198, CSID 1241

NWRO TCP evaluated the site documents and determined the two sites should be two units of the same cleanup site.

Ecology has updated the ISIS database and site files to reflect the following single cleanup site:

Champion International Ballard

- Also known as: Champion International Ballard Mill and Champion International Seattle
- Address: 4025 13th Ave W, Seattle 98119
- Facility Site ID: 2199
- Cleanup Site ID: 1147
- Unit 1: Champion International Sed, status is Cleanup Started
- Unit 2: Champion International Upland, status is No Further Action
- Site Status: Cleanup Started

The Champion Intl Ballard Sed cleanup site – including CSID 1241 and FSID 2198 – has been removed from Ecology databases. The site documents will be combined into one file.
