Dear Mr. Molinari:

Re: Completion of Monitoring
Former Edmond Meany Hotel
4507 Brooklyn Avenue NE
Seattle, Washington
Site ID No. NW 0574

Thank you for submitting the results of the groundwater monitoring conducted at the Former Edmond Meany Hotel. This monitoring was required by the no further action letter issued by the State of Washington Department of Ecology (Ecology) on June 24, 2002.

Ecology's Toxics Cleanup Program has reviewed the following information regarding the facility:

1. 2001-2003 Groundwater Monitoring Report
Former Edmond Meany Hotel
Seattle, Washington
URS Corporation, dated July 6, 2004

The report listed above will be kept in the Central Files of the Northwest Regional Office (NWRO) of Ecology for review by appointment only. Appointments can be made by calling Sally Perkins at the NWRO at (425) 649-7190.

Based upon the information in the report, Ecology has determined that the monitoring required by the no further action letter dated June 24, 2002 has been satisfactorily completed. No further monitoring is required and the monitoring wells may be abandoned. Abandonment of the wells must be conducted in accordance with the requirements of Chapter 173-160 Washington Administrative Code (WAC), *Minimum Standards for Construction and Maintenance of Wells*.

This letter addresses only the monitoring required by the no further action letter. It does not modify any other conditions or requirements of Ecology's no further action determination, including Restrictive Covenants, if any. Please note that because your actions were not conducted under a consent decree with Ecology, this letter is written pursuant to RCW 70.105D.030(1)(i) and does not constitute a settlement by the state under RCW 70.105D.040(4)
