**Re: Notification of Ecology's Requirement for Emergency Interim Actions at the following Hazardous Waste Site:**

- **Site Name: Spokane International Airport PFAS**
- **Site Address: 9000 W. Airport Dr., Spokane, WA 99204**
- **Cleanup Site ID: 16774**
- **Facility/Site ID: 6332493**

Dear Lisa Corcoran, Marlene Feist, and Ben Brattebo:

The Washington Department of Ecology (Ecology) is formally notifying the Spokane International Airport (SIA), City of Spokane (City), and Spokane County (County) that emergency interim actions are required at the Spokane International Airport PFAS Site. Based on available data, Ecology has determined contamination originating from SIA property has migrated downgradient and impacted off-property drinking water at levels exceeding safe standards. To address impacts to commercial and residential drinking water, emergency interim actions are required pursuant to Task 4 of both Enforcement Order No. DE 22584 (EO) and Agreed Order No. DE 24355 (AO).

Interim actions are required when necessary to reduce a threat to human health or the environment by eliminating or substantially reducing one or more pathways for exposure to a hazardous substance. Ecology has determined these interim actions are necessary to protect human health and the environment. Emergency interim actions shall be implemented in accordance with WAC 173-340-430, -880, and the EO/AO. Enclosed with this letter is the scope

Lisa Corcoran, Marlene Feist, and Ben Brattebo

of work and schedule for the required emergency interim actions. As described in the scope of work and schedule, the short-term interim action work plan is due 14 days from receipt of this letter. Also digitally enclosed is an ESRI shapefile of the required areal extent of the emergency interim action.

Ecology looks forward to cooperatively working with SIA, the City, and the County to address this emergent condition. If you have any questions regarding this letter or the requirement to implement emergency interim actions, please contact me at 509-724-1164 or at [jeremy.schmidt@ecy.wa.gov](mailto:jeremy.schmidt@ecy.wa.gov).

Sincerely,

Jeremy Schmidt, P.E.  
Site Manager  
Toxics Cleanup Program
