Ms. Margaret Russell
Post Office Box 25
Orcas, Washington 98280

Dear Margaret:

**Corrections
Contamination Assessment Report
Russell's Landing
Orcas, Washington**

This letter documents corrections to our November 11, 1994 Contamination Assessment report. Based on verbal comments provided on November 29, 1994 by Ms. Theresa Michelson of the Washington State Department of Ecology, the following corrections have been made:

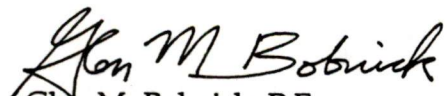

Appendix D, Page 3, Paragraph 5 : The reported species used for Amphipod testing should be *Rhepoxynius abronius* instead of *Crassostrea gigas*.

Appendix D, Laboratory Report, Page iii : Heading for the Executive Summary of Test Results should read "Mortality/Abnormality (%)" instead of "Mortality (%)."

If you have any questions about these corrections, please contact either Mingta Lin or me at (206) 453-8383.

Sincerely,

AGI Technologies

Glen M. Bobnick, P.E.
Senior Engineer
