RE: Groundwater Sampling – Southgate Laundry Site, FSID: 482

Dear Rodger Noel:

The Washington Department of Ecology (Ecology) is continuing the Yakima Railroad Area groundwater-monitoring project. As part of this investigation, Ecology's Environmental Assessment Program will be conducting groundwater sampling for the Yakima Railroad Area between October 21 and October 24, 2025.

Samples will be analyzed for tetrachloroethylene, breakdown products, and general water quality parameters. Results will be available to you once Ecology receives them, upon your request. Please consider this letter to be a formal property access notice for an Ecology representative.

If you have any questions, please contact me at (509) 907-1353.

Sincerely,

Rachel Caron
Site Manager
Toxics Cleanup Program
