

Circle K 1461 Coordination Meeting Minutes

Meeting Time: 1:00 pm to 1:30 pm **Page:** 1 of 1
Meeting Location: MS Teams **Date:** 25 March 2026
Meeting Date: 3/24/2026
Project: Circle K Environmental Cleanup – Treatment System Operations Update

Persons Attending:

<i>Kennedy Jenks</i>	<i>Ecology</i>	<i>ERRG</i>
Shaelyn Thomas	Olu Akeroro	Jennifer Sonnichsen
Spenser Kuhn	Angela Harkins	Fernando Idiarte
		Spencer Slominski

Subject:

1. System Operations Update:

- No system issues since December. Status of system operation
- 5 extraction wells are operating. The system treats approximately 500 gallons of groundwater per day, on average.
- Vapor influent concentrations are relatively low (~20 ppm). Next carbon changeout will most likely occur after 8+ weeks of operation since the last changeout.

2. Reporting:

- Review Fourth Quarter 2025 and Annual 2025 Remedial Progress Evaluation Report
 - o KJ has provided comments. Ecology to review and provide comments as well.

3. Next Steps

- Complete May groundwater sampling event and evaluate if the site is ready to move to Phase 2 once May data is received.
- Following the workplan, the Site should proceed to Phase 2 when GWM data shows that TPH concentrations have reached an asymptotic plateau in the wells, especially the wells on the outside edge of the plume.
- ERRG to provide GWM data to-date in Excel format once the May results are available.
