Re: Jeld Wen – Ecology Approval of Uplands EDRs

Site Name: Jeld Wen
Site Address: 300 W Marine View Drive, Everett, WA 98201-1030
Cleanup Site ID: 4402
Facility Site ID: 2757
Agreed Order No. DE 5095

Dear Eric Rapp:

Washington State Department of Ecology (Ecology) received draft Engineering Design Reports (EDRs) for the Woodlife and Creosote areas of the Jeld Wen site on July 21, 2025. Ecology provided comments on those reports in a letter dated August 25, 2025. Revised EDRs were submitted to Ecology on October 9, 2025. Ecology provided comments on those revised documents in a letter dated November 24, 2025, and revised EDRs were submitted to Ecology on March 31, 2026.

Ecology has concluded that our comments have been sufficiently addressed and those documents, dated March 2026, are now considered final. Ecology appreciates the ongoing efforts of the Jeld Wen team to clean up the Site.

Sincerely,

Frank P. Winslow, LHG
