

## Circle K 1461 Coordination Meeting Minutes

---

**Meeting Time:** 1:00 pm to 1:30 pm **Page:** 1 of 1  
**Meeting Location:** MS Teams **Date:** 30 April 2026  
**Meeting Date:** 4/28/2026  
**Project:** Circle K Environmental Cleanup – Treatment System Operations Update

---

### Persons Attending:

| <i>Kennedy Jenks</i> | <i>Ecology</i> | <i>ERRG</i>         |
|----------------------|----------------|---------------------|
| Shaelyn Thomas       | Olu Akeroro    | Jennifer Sonnichsen |
| Spenser Kuhn         | Angela Harkins | Fernando Idiarte    |
|                      |                | Spencer Slominski   |
|                      |                |                     |

### Subject:

#### 1. System Operations Update:

- System currently extracting from four wells (RW-3, RW-6, RW-8, RW-8). System vacuum is ~14.5 inHg. Optimal pump performance requires vacuum ~15 inHg. ERRG is unable to extract from more wells while the 3 SSD points are open as additional wells would reduce system vacuum further.
- PID readings (both influent and effluent) from the vapor treatment train have been relatively low since December. This is probably tied to high seasonal groundwater levels.
- Last GAC media changeout occurred on 2/12/26.

#### 2. Monitoring & Reporting:

- Next groundwater monitoring event is scheduled for 5/8.

#### 3. Next Steps:

- ERRG to schedule meeting with ETEC, KJ and DOE for Tuesday 5/5 after 1:30pm to discuss chemical injections ahead of Phase 2.
