Re: Satisfaction of Agreed Order No. DE14246 for the following Contaminated Site:

Site Name:	Newman's Chevron
Site Address:	2021 6 th Street, Bremerton WA 98310
Cleanup Site ID:	5252
Facility Site ID:	1436359

Dear Eric Hetrick, Roger Jensen, and Jim Reed:

Thank you for working with the Washington State Department of Ecology (Ecology) on Newman's Chevron (Site). This letter provides written notification that the Remedial Investigation (RI), Feasibility Study (FS), and Draft Cleanup Action Plan (DCAP) required at the Site by Agreed Order No. DE 14246 (Order) under the Model Toxics Control Act (MTCA), Chapter 70.105D RCW, have been satisfactorily completed. The Order became effective on February 6, 2018 and was amended on February 6, 2019. This letter also describes the next steps for the Site.

Completion of Remedial Actions Required by the Order

Ecology has determined the requirements of the Order have been satisfied. Ecology made this determination pursuant to Section IX (Satisfaction of Order).

The remedial actions required by the Order are specified in Section VII (Work to Be Performed). Chevron Environmental Management Company, Nordic Properties, Inc., and Victory Business Park LLC were required to:

- Prepare a Work Plan to conduct a RI;
- Implement the RI Work Plan;
- Conduct a FS;
- Prepare RI and FS Reports; and
- Prepare a preliminary DCAP.

After inspecting the Site and reviewing the supporting documentation, Ecology has determined the remedial actions in Section VII have been satisfactorily completed.

Next Steps at the Site

Ecology has completed a DCAP for the Site. After review and consideration of comments received during the public comment period, a final Cleanup Action Plan (CAP) will be issued.

The CAP will be implemented in a consent decree. Ecology will be contacting you to enter negotiations for the consent decree and looks forward to continuing this working relationship.

Thank You

Thank you for your efforts toward working to clean up the Site. Should you have any questions, please do not hesitate to contact Ecology's cleanup project manager for this Site, Cecilia Henderson, at (206) 348-0638 or cecilia.henderson@ecy.wa.gov.

Sincerely,

Kim Wooten

Section Manager
