Subject: Cleanup Progress Report, First and Second Quarters 2026
Univar Solutions USA, Inc.
8201 South 212th Street, Kent, Washington
Agreed Order No. DE 5988

Dear Ms. Colouzis

Arcadis has prepared this Cleanup Progress Report on behalf of Univar Solutions USA, LLC (Univar Solutions) to summarize site remediation activities performed at the Univar Solutions facility located at 8201 South 212th Street in Kent, Washington (site). This progress report covers the period from January 1 through June 30, 2026 (reporting period).

This report is being submitted pursuant to the requirements of Agreed Order No. DE 5988 (AO) between Univar Solutions (formerly Univar USA, Inc.) and the Washington State Department of Ecology (Ecology), effective November 20, 2008. Pursuant to Task 4, Exhibit B of the AO, this report includes:

1. Work conducted pursuant to the AO during the reporting period;
2. Any problems that occurred or deviations from the work plans and how they were solved;
3. Changes in personnel;
4. A summary of significant findings;
5. A summary of contacts with agencies and community groups; and
6. Work projected to occur in the upcoming two quarters.

1. Work Performed During the Reporting Period

The work performed during the reporting period included:

- Submittal of the Cleanup Progress Report covering the Third and Fourth Quarters of 2025 in January 2026;
- Submittal of the 2025 Annual Groundwater Monitoring Report in February 2026;
- Completion of semi-annual groundwater monitoring in April 2026; and,
- Validated the first semi-annual groundwater data collected during the second quarter of 2026 in preparation for the 2026 Annual Monitoring Report;

2. Occurrence of Problems or Deviations from the Work

There were no deviations from planned work during the reporting period.

3. Changes in Personnel

There were no changes in project personnel during the reporting period.

4. Summary of Significant Findings

There were no significant findings during the reporting period.

5. Contacts with Agencies and Community Groups

Contact with Ecology during the reporting period included:

- Submittal of the Semi-Annual Report for the second half of 2025 on January 7, 2026.
- Submittal of the 2025 Annual Groundwater Monitoring Report on February 27, 2026.
- Email with Ecology on June 5, 2026 where Arcadis and Ecology agreed upon an annual reporting schedule for the progress reports that will begin in July 2026.
- Phone call with Ecology on June 15, 2026 to request a reduction in groundwater sampling scope starting in the fourth quarter 2026. Arcadis and Ecology agreed to submit a technical memorandum that will provide detailed recommendations for monitoring reductions.

6. Work Planned for the Next Reporting Period (July 2026 through June 2027)

- Technical memorandum for groundwater monitoring scope reduction;
- Conduct the second semi-annual groundwater monitoring event in the fourth quarter 2026;
- Complete annual CAP inspection and submit the CAP Inspection Report in the fourth quarter of 2026;
- Prepare and submit the 2026 Annual Groundwater Monitoring Report by March 31, 2026; and
- Conduct the first semi-annual groundwater monitoring event in second quarter 2027.

Should you have any questions or concerns, please contact Melissa Caldwell at Melissa.Caldwell@arcadis.com or (503) 785-9381 or Michelle Stayrook at Univar Solutions at (614) 477-6376.

Sincerely,
Arcadis U.S., Inc.

Melissa Caldwell
Project Manager
