RE: Snipes Mountain Landfill – Remedial Investigation Schedule Extension Approval

- **Site Name:** Snipes Mountain Landfill
- **Site Address:** 1150 Luther Rd, Sunnyside
- **Facility/Site ID:** 501
- **Cleanup Site ID:** 3402
- **Agreed Order No.:** DE 22514

Dear Scott,

Ecology has completed a review of the Schedule Extension Request for the Snipes Mountain Landfill dated September 25, 2026. The requested extension concerns the completion of Remedial Investigation (RI) field work as provided in Appendix B of the Agreed Order No. DE22514 (AO) which was originally due 730 days following approval of the RI Work Plan. The requested extension is for an additional 365 days for completion of the RI field work due to unforeseen circumstances related to sampling pump performance and availability. The requested time extension is intended to allow time for additional water level data collection in monitoring wells SMW-5s and SMW-5d concurrent with the new monitoring wells proposed in the Monitoring Well Expansion Plan. After sufficient water level data is collected and presented to Ecology for review, new sampling pumps will be installed in monitoring wells SMW-5s and SMW-5d to complete the water quality sampling required for the RI. Your request for a time extension for completion of the RI field work is hereby approved. The RI field work must be completed by January 17, 2028. Deliverables following completion of RI field work in Exhibit B of the AO are unaffected by this change because these due dates are contingent upon completion of the RI field work. If you have any questions, please contact me at (509) 379-3961 or via email at luke.lemond@ecy.wa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read 'Luke LeMond', with a stylized, cursive script.
