Re: Cleanup Status
West Coast Construction/Spectrum Glass Site
24205 Woodinville Snohomish Rd, Woodinville, WA 98072
FS ID: 14148591
VCP Project No: NW2013

Dear Mr. Myers:

Spectrum Glass continues to actively pursue a cleanup of the metal-impacted soils on the West Coast Construction property. Cleanup activities were originally scheduled for late 2012, but were delayed due to unanticipated requirements associated with a fill and grade permit through Snohomish County.

Our permit application was deemed complete and accepted by Snohomish County in mid-February. The County has indicated that they will respond to our application within 10 weeks (by the end of April 2013). It is our plan to conduct the cleanup activities as soon as possible following the receipt of the permit and schedule approvals from the property owner and current tenant.

If you have any questions, please do not hesitate to contact us at (360) 714-9409.

Sincerely,
Stratum Group
