

- Notes:
1. The proposed pentachlorophenol cleanup level = 3 µg/L
  2. The 2nd Water Bearing Zone is defined as the vertical region < -2.346 ft NAVD 88
  3. Penta = Pentachlorophenol
  4. U - The analyte was not detected greater than or equal to the concentration reported.
  5. J - The analyte was detected but the reported concentration is qualified.

**Legend**

- MW-7 Monitoring Well, 1st Water Bearing Zone
- 3.4 Penta Concentration in µg/L
