Re: Yakima SC Associates Well Repair and Redevelopment Plan w/ attachments

Dear Mr. Matthews:

Thank you for the opportunity to review and comment on the draft monitoring well repair and redevelopment plan. The Fulcrum-Yakima SC Associates Well Repair and Redevelopment Plan REVISED for Ecology Review with Attachments.pdf (4 MB) was attached to an email that originated from your office on July 25, 2013 at 3:26 pm. Ecology finds this revised plan responsive to Ecology comments. Ecology provided you with an email response on July 25, 2013 at 4:06 pm authorizing you to proceed with implementation of the plan. This letter provides that authorization in a more formal form.

Please inform Ecology of the estimated timing of your report documenting the repairs and redevelopment. That report should be submitted in the form of two written copies and one electronic copy, for inclusion in site files and Ecology's Site Document Storage and Retrieval System (DSARS), where it will be available for general public review or downloading.

Your prompt attention to repairing the damaged wells is greatly appreciated. Ecology will provide final written approval of the work performed following review of the final report documenting the work performed.

If you have any questions, please feel free to contact me at (509) 454-7837 or by email at nope461@ecy.wa.gov.

Sincerely,

Norman D. (Norm) Peck
