Subject: Ecology Responsiveness Summary for the Troy Laundry Site at
307 Fairview North, Seattle, WA
Cleanup Id # 11690 and Facility Site # 19135499

Dear Mr. Shawn Perry:

Washington State Department of Ecology has completed the Responsiveness Summary for the Troy Laundry Site public comment period dated August 26, 2013. The Model Toxics Control Act (MTCA) public comment period was held for the proposed Amended Agreed Order # DE 8996, proposed Interim Action Plan, State Environmental Policy Act determination, and Public Participation Plan. The purpose of this letter is to notify you that the Responsiveness Summary was completed dated August 26, 2013 and will be posted on the site webpage shortly.

The AO Amendment and Interim Action Plan (IAP) are the proposed next steps in the MTCA cleanup process at the Troy Site. These steps will **NOT** replace the steps in the MTCA cleanup process for completing the Remedial Investigation (RI), Feasibility Study (FS), and Cleanup Action Plan (CAP) for the Troy Site. When the draft final RI, FS and CAP are completed, then Ecology will conduct the next public comment period. These MTCA steps are required and will be implemented with Ecology approval and oversight.

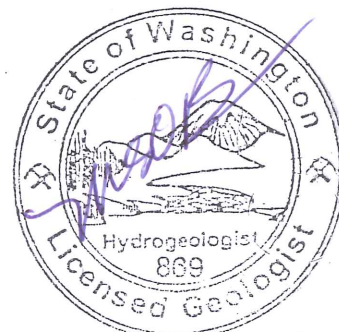

I look forward to working with you for the next steps in the MTCA cleanup process at the Troy Site. If you need additional information, please contact me at the Northwest Regional Office at mobr461@ecy.wa.gov or by telephone at 425-649-7249.

Sincerely,

Maura S. O'Brien, PG/HG #869
Professional Geologist/Hydrogeologist and Site Manager
