Dear Mr. Bush:

The State Department of Ecology has recently completed a hazard ranking for Alders Chevron, 1602 Terrace Heights Drive, Yakima, Washington, as required by the Model Toxics Control Act, (RCW 70.105D). This is a comparative estimate of the potential threat of this site to human health and the environment relative to other Washington State sites ranked at this time. A ranking of 4 has been calculated for your site, (1 = high, 5 = low).

For your information, Ecology will be publishing, as required, the ranking of this and other sites in the September 7, 1993, "Site Register." The rankings will be used in conjunction with other considerations in determining our priority for followup work.

A fact sheet on the ranking method is enclosed for your information.

For further information, please contact Mark Peterschmidt, at the Department of Ecology, Central Regional Office, 106 South 6th Avenue, WA 98902-3387, at (509) 454-7840.

Sincerely,

A handwritten signature in blue ink, reading "Mark Peterschmidt", is written over the typed name.
