September 5, 1991

Southgate Laundry  
1020 South 3rd Avenue  
Yakima, Washington 98902

Dear Business Owner or Operator:

The State Department of Ecology has recently completed a hazard ranking for the Southgate Laundry site, as required by the Model Toxics Control Act (RCW 70.105D). This is a comparative estimate of the potential threat of this site to human health and the environment relative to other Washington State sites ranked up to this time. A tentative ranking of 3 has been calculated for your site, (1 = high, 5 = low).

For your information, Ecology has published, as required, the ranking of this and other sites in the August 27th "Site Register". The rankings are used in conjunction with other considerations in determining our priority for followup work.

A fact sheet on the ranking method is enclosed for your information.

For further information, please contact Robert Swackhamer, Department of Ecology, 106 South 6th Avenue, Yakima, Washington 98902-3387, (phone: (509) 575-2490).

Sincerely,

Anthony W. Grover  
Section Supervisor  
Toxics Cleanup Program
