Naches, WA 98937

Dear Mr. and Mrs. Bissell:

The State Department of Ecology has recently completed a hazard ranking for the **Pit Stop** contaminated site in **Naches**, as required by the Model Toxics Control Act (RCW 70.105D). This is a comparative estimate of the potential threat of this site to human health and the environment relative to other Washington State sites ranked up to this time. A ranking of 2 has been calculated for this site (1 = high, 5 = low).

For your information, Ecology will be publishing, as required, the ranking of this and other sites in the February 25th "Site Register". The rankings are used in conjunction with other considerations in determining our priority for followup work.

A fact sheet on the ranking method is enclosed for your information.

For further information, please contact Mark Peterschmidt, Department of Ecology, 106 South 6th Avenue, Yakima, Washington 98902-3387, (phone: (509) 575-2490).

Sincerely,

Robert D. Swackhamer
