August 19, 1992

Mr. Jeff Loudon
Maid O'Clover
202 South 5th Avenue
Yakima, WA 98902

Dear Mr. Jeff Loudon:

The State Department of Ecology has recently completed a hazard ranking for the Maid O'Clover site located on East Nob Hill Blvd., as required by the Model Toxics Control Act, (RCW 70.105D). This is a comparative estimate of the potential threat of this site to human health and the environment relative to other Washington State sites ranked at this time. A ranking of 2 has been calculated for your site, (1 = high, 5 = low).

For your information, Ecology will be publishing, as required, the ranking of this and other sites in the August 25th "Site Register." The rankings will be used in conjunction with other considerations in determining our priority for followup work.

A fact sheet on the ranking method is enclosed for your information.

For further information, please contact me at the Department of Ecology, Central Regional Office, 106 South 6th Avenue, WA 98902-3387, at (509) 454-7840.

Sincerely,

Mark Peterschmidt
