

Everett Smelter Mapping & Sampling Orientation Meeting

Washington State Department of Ecology (Ecology) invites you to attend an orientation meeting to learn more about the work planned for your neighborhood. This is an opportunity to ask questions, receive feedback as well as provide your comments.

Ecology has identified properties with contamination but needs to complete more mapping and sampling to determine what cleanup activities needs to be conducted. Ecology is asking property owners and tenants to sign the access agreement by **June 12, 2007** so mapping can be performed this summer. Sampling work will occur as funding becomes available.

Everett Smelter Mapping & Sampling Orientation Meeting

Date: June 5, 2007
Time: 6:00-8:00 p.m.
Location: North Middle School Cafeteria
