RE: *Boeing Field Chevron Final Determination Letter*

Dear Dale:

This letter responds to the questions you posed to our consultant Liz Rachman during your meeting last week regarding the final determination letter for the Boeing Field Chevron site.

We agree that under these circumstances it is fine for Ecology to modify the original Potentially Liable Person (PLP) notice letter sent to our client Raj Sandhu dated September 27, 2012 to include his wife Pradeep Sandhu as a PLP, rather than drafting a second letter to be sent to Pradeep separately.

We also agree that it is appropriate to use the King County Tax Assessor's address for the parcel, 10805 Tukwila International Boulevard in Tukwila, rather than the business license address (10805 East Marginal Way South in Seattle), for all official Ecology correspondence and documents.

Please do not hesitate to contact me if you have any further questions.

Sincerely,

Kurt B. Peterson
