

DETERMINATION OF NONSIGNIFICANCE
(DNS)

Description of Proposal: Airport Kwik Stop (Ione) Petroleum Contamination 2nd Interim Action.

This action will remove petroleum gasoline product floating on top of the groundwater beneath the Cabin Grill property on site. Soil borings will be drilled to collect soil and groundwater information near the Cabin Grill and downgradient of the Airport Kwik Stop. One and possibly more than one petroleum skimmer pump(s) will be installed in the vicinity of the Cabin Grill. Additional borings will be drilled near the existing Soil Vapor Extraction System (SVE) to establish soil remediation effectiveness when the SVE system performance indicates SVE soil remediation may be complete.

Proponent: Washington State Department of Ecology

Location of Proposal: 2102 HWY 31
Ione, WA 99139

Lead Agency: Washington State Department of Ecology

The lead agency for this proposal has determined that it does not have a probable significant adverse impact on the environment. An Environmental Impact Statement (EIS) is not required under RCW 43.21C.030(2)(c). This decision was made after review of the Environmental Checklist and other information on file with the lead agency. This information is available to the public on request.

- There is no comment period for this DNS.
- This DNS is issued after using the optional DNS process in WAC 197-11-355. There is no further comment period on the DNS.
- This DNS is issued under WAC 197-11-340(2); the lead agency will not act on this proposal for 14 days from the date below. Comments must be submitted by August 26, 2014.**
