January 6, 2015

Ms. Jean Wong
Chevron Environmental Management Company
6001 Bollinger Canyon Road
San Ramon CA 94583

RE: Result of Site Hazard Assessment at the following Site:

- Site Name: Chevron 97348
- Site Address: 500 and 510 N. Wenatchee Ave, Wenatchee
(Formerly 502 N. Wenatchee Ave, Wenatchee)
- Facility/Site ID #: 15685336
- Cleanup Site ID #: 5586

Dear Ms. Wong:

The Washington State Department of Ecology (Ecology) Toxic Cleanup Program has completed a Site Hazard Assessment (SHA) for the site mentioned above, as required under the Model Toxics Control Act. The site's hazard ranking, an estimation of the potential threat to human health and/or the environment relative to all other Washington State sites assessed at this time, has been determined to be a 2, where 1 represents the highest relative risk and 5 the lowest.

For your information, Ecology will be publishing the ranking of this and other recently assessed sites in the February 2015 Special Issue of the Site Register. The site hazard ranking will be used in conjunction with other site-specific considerations in determining Ecology's priority for future actions.

Ecology reserves the right to initiate further investigation at this site where new information is received indicating a potential/actual threat to human health and/or the environment through the release of hazardous substance(s).

Please contact Suzen Hyde at (509) 886-6458 if you have any questions relating to the SHA determination of your site.

Sincerely,

Valerie Bound
Section Manager
Toxics Cleanup Program
