Dear Mr. Robinson:

A "No Further Action" (NFA) determination letter based upon a Site Hazard Assessment was issued for this Site on August 17, 2010. The effective date of the NFA rescission is February 17, 2015.

Ecology has determined that the Dole Fresh Vegetables site located at 803 Autumn Crest Drive, Wenatchee is not in compliance with Model Toxics Control Act (MTCA) Cleanup Regulation due to contamination in the groundwater that was not originally considered when the 2010 Site Hazard Assessment was conducted.

Ecology had updated its database to reflect the rescinded NFA determination for this Site. The Site will be listed in future publications of the Confirmed & Suspected Contaminated Sites Report.
