Dear Mr. Myers:

On behalf of Fred Meyer Stores, Inc. (Fred Meyer), Amec Foster Wheeler Environment & Infrastructure, Inc. is submitting this Petition for Removal from the Hazardous Sites List for the above referenced Site.

Ecology may remove a site from the Hazardous Sites List when it determines that all remedial actions have been completed and compliance with cleanup standards has been achieved. WAC 173-340-330(7)(a)(i). Site owners may petition Ecology for removal by providing thorough documentation of all investigations, cleanup, and compliance monitoring evidencing that the criteria for removal have been met. WAC 173-340-330(7)(b).

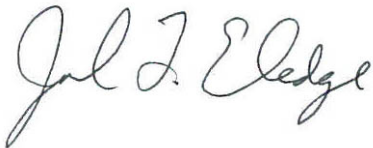

As thoroughly documented in the attached Final Cleanup Report, Fred Meyer has completed all remedial actions at the Site as required under the Agreed Order for Final Cleanup Action and Compliance Monitoring (No. DE 9040), and compliance with the cleanup standards has been achieved. The Site should therefore be removed from the Hazardous Sites List.
