

Department Decision Recommendation

Site: 100 Circles Farm
City: Paterson
County: Benton
FSID: 6362010

RE: UST/ERTS # NA

In keeping with the requirement of WAC 173-340-310 (5) I recommend No Further Action. Three areas suspected of residual herbicide and pesticide contamination at handling areas have detected quantities below screen values for protection of human health and the environment.

Supporting Criteria:

ConAgra Foods collected soil samples from three areas of concern: Abandoned Air Strip, Private Air strip, and Active Air Strip, see April 2010 *Characterization Report ConAgra Foods 100 Circle Farms, Paterson, Washington*.

COPC (mg/kg)	HH CUL	Eco CUL	Abandoned (2)	Private (3)	Active (14)
2,4-D	800	--	ND - 0.059	ND	ND
Dinoseb	80	--	ND - 0.047	ND - 0.017	ND - 0.41
Dieldrin	0.63	0.17	ND - 0.00018	ND	ND
alpha-Chlordane	2.9	1	ND	ND - 0.00019	ND - 0.21
gamma-Chlordane	2.9	1	ND	ND - 0.00028	ND - 0.18
Heptachlor epoxide	0.11	0.6	ND	ND	ND - 0.000068

The areas of concern do not meet the terrestrial ecological evaluation exclusion; however, toxicity analysis ends the simplified evaluation, see table.

This Department Decision Recommendation should be reviewed and re-evaluated based on any new information about these sites.
