

Community meeting announced to present school cleanup plans

The Department of Ecology invites you to attend a community meeting on Wednesday, May 6, 2015 about the cleanup of the Skykomish School property. Representatives from Burlington Northern-Santa Fe Railway (BNSF), their consultants Farallon Consulting and Glacier Construction, and Ecology will be on hand to present the cleanup plans for 2015 and take questions.

The environmental cleanup in the Skykomish community has been a historic and monumental effort that has spanned over 10 years. Most of the project has been completed, and the town has been renovated. The cleanup of the historic school property is the last major piece to be completed.

Meeting information is listed in the box at the top right of this page. If you have questions about the meeting or school cleanup, please contact Brian Sato or Brad Petrovich at Ecology. For more detailed information about 2015 work and the Skykomish cleanup in general, you can also view Ecology's Skykomish cleanup web page at: www.ecy.wa.gov/programs/tcp/sites and search site name: **BNSF Railway Skykomish**.
