

**DETERMINATION OF NONSIGNIFICANCE
WAC 197-11-970 Determination of nonsignificance (DNS).**

Description of proposal: The WA Department of Ecology proposes to conduct a pilot test at the Airport Kwik Stop Site. The pilot test will include a combined air sparge and soil vapor extraction system east of SR 31 and south of Dewitt Road, near the former Cabin Grille. This test will determine if a full scale treatment system is needed for the site. One additional air sparge well will be installed, and a new metered electrical service will be installed. One of more new power poles will be installed for the electrical connections for the pilot system. The pilot SVE/AS equipment will be trailer-mounted. Major components of the system will include blower(s) for SVE/AS, knockout drum for moisture removal, manifold and piping to connect SVE and AS wells, and a catalytic oxidizer. Extracted soil vapor will be treated with a catalytic oxidizer and if polishing is needed activated carbon filters.

Proponent: WA State Department of Ecology

Location of proposal, including street address, if any: 2102 Highway 31, Ione, Washington 99130 The work will take place in portions of Sections 7, 8, 17; Range 43 East; Township 37 North.

Lead agency: Washington Department of Ecology

The lead agency for this proposal has determined that it does not have a probable significant adverse impact on the environment. An environmental impact statement (EIS) is not required under RCW 43.21C.030 (2)(c). This decision was made after review of a completed environmental checklist and other information on file with the lead agency. This information is available to the public on request.
