Dear Mr. Brooke:

Thank you for working with the Washington State Department of Ecology (Ecology) on Welchs Kennewick / J Lieb Foods Inc (Site). This letter provides written notification that the remedial actions required by Agreed Order No. DE 4781 have been satisfactorily completed and that no further remedial action is necessary to clean up contamination at the Site under the Model Toxics Control Act (MTCA), Chapter 70.105D RCW. This letter also describes the removal of the Site from Ecology's Hazardous Sites List. The Order became effective on September 26, 2007.

Satisfaction of Order

Ecology has determined the requirements of the Order have been satisfied. Ecology made this determination pursuant to Section [IX] (Satisfaction of Order).

The remedial actions required by the Order are specified in Section [VII] (Work to Be Performed) and detailed in the Schedule for Work (Exhibit B). Welch Foods Inc. was required to conduct a remedial investigation and feasibility study (RI/FS). After inspecting the Site and reviewing the supporting documentation, Ecology has determined that the remedial actions required by the Order have been satisfactorily completed.

No Further Action Determination

Ecology has determined that no further remedial action is necessary to clean up contamination at the Site under MTCA. Ecology has also determined that no post-cleanup controls or monitoring are necessary under MTCA.

Delisting of the Site

Based on the no further action determination, Ecology proposed removing the Site from the Hazardous Sites List (HSL). Ecology published notice of the proposal in the Site Register on May 14, 2015 and provided a 30-day public comment period, from May 11, 2015 to June 10, 2015. No comments were received. After review and consideration of the comments, Ecology removed the Site from the HSL on June 11, 2015. The removal will be reflected in the next publication of the HSL in the Site Register.

Thank You

Thank you for cleaning up the Site. Should you have any questions, please do not hesitate to contact Ecology's cleanup project manager at (509) 454-7835 and matthew.durkee@ecy.wa.gov.
