Re: City of Kenmore Permit # SSDP 2013-109, Approved
Shoreline Substantial Development Permit (SDP) - 2015-NW-3078

Dear Mr. Banks:

On December 21, 2015, the Department of Ecology received notice that the City of Kenmore approved your application for an SDP. Your permit authorizes construction of a new 640-square-foot grated pier adjacent to the existing concrete bulkhead and floatplane landing station, reconfiguration of a portion of an existing floating pier to improve access to the existing floatplane landing station, replacement of two wood ramps with grated ramps, removal of two solid concrete floats, removal of three (14-inch diameter) pile dolphins and replacement with (10-inch diameter) steel piles, and to remove groins at wave break and debris at the shoreline.

By law, local governments must review all SDPs for compliance with:

- The Shoreline Management Act (Chapter 90.58 RCW);
- Ecology's Substantial Development Permit approval criteria (Chapter 173-27-150 WAC);
and
- The City of Kenmore Local Shoreline Master Program.

Local governments, after reviewing SDPs for compliance, are required to submit them to Ecology. Your approved SDP has been received by Ecology.

What Happens Next?

Before you begin activities authorized by this permit, the law requires you wait at least 21 days from December 21, 2015, the "date of filing." This waiting period allows anyone (including you) who disagrees with any aspect of this permit, to appeal the decision to the state Shorelines Hearings Board. You must wait for the conclusion of an appeal before you can begin the activities authorized by this permit.

The Shorelines Hearings Board will notify you by letter if they receive an appeal. We recommend you contact the Shorelines Hearings Board before you begin permit activities to ensure no appeal has been received. They can be reached at (360) 664-9160 or <http://www.eho.wa.gov/>.

Other federal, state, and local permits may be required in addition to this shoreline permit.
