- II. Questionnaires, Letters and Postcards Used in Survey Mailing
- III. Detailed Characteristics of Locations Using Well Water

YRRA Receptor Survey

Survey Procedures.

A mailing list database was developed in August 1997, based on PhoneDisc CD-ROM listings for the Yakima Railroad Area (YRRA), Area 1 (A1), and Area 2 (A2) in the cities of Yakima and Union Gap, Washington. Only businesses were covered for the YRRA, whereas both business and residence listings were covered for A1 and A2. Through cross-checking and verification, additional listings were obtained from the *R.L. Polk City Directory* and the *Hill-Donnelly Cross Reference Directory* for the designated areas. All three of these sources are based primarily on telephone directory listings.

Multiple listings at the same street address were identified. These included cases where more than one business is located in the same building and where two telephone numbers are listed for the same residential address. Such cases were evaluated and investigated through telephone calls. Where possible, the listing of the main occupant or owner of a building was determined, this listing was retained in the mailing list, and others were eliminated to avoid duplication.

The final mailing list database was developed on a Microsoft Excel spreadsheet, including name of the business or resident; street address and zip code; and telephone number, and a sequential code number (IdNo).

The initial database included 1243 businesses located in the YRRA and 104 businesses and residences located in Area 1. In the course of questionnaire mailing and investigation, three addresses were determined to be duplicates (see **Appendix I**), seven additional listings were added to the YRRA and one was added to A1. In most cases, the additions resulted from new business locations.

At same time the mailing list was developed for YRRA and A1, a list of 169 businesses and residences was identified Area 2 (after elimination of multiple occupants). This data base was set aside pending the decision as to whether A2 will be surveyed.

Drafts of the questionnaire and drafts of explanatory letters to the survey recipients were developed and circulated for review by SECOR, its client, and by the Washington Department of Ecology (DOE) in August 1997. After several rounds of comments and revisions, final versions were approved in mid-September and translated into Spanish. The English and Spanish versions of the questionnaire and letters were field tested on a small sample of recipients and finalized by September 20. Final copies of the questionnaire and all mailing materials, in both English and Spanish, are provided in **Appendix II**.

As specified in the plan for the study, letters and questionnaires were sent to all businesses and residents on the mailing list, following an explanatory DOE press release which was issued on October 9. First, a pre-notification card was sent, advising recipients that they would soon be receiving a questionnaire. Then the questionnaire itself was sent, with the explanatory letter from DOE. This was followed by two reminder cards over the next three weeks. For those who still had not replied, a second letter with a second copy of the questionnaire was sent on November 1.

Follow-up telephoning and site visits were initiated in the second week of November and continued until December 24. These calls and visits were used both to secure information from those who did not return questionnaires, and to clarify responses on

Effect contact with owners in all cases.

YRRA Receptor Survey

some of those which were returned but which in various ways were incomplete or unclear.

In twelve cases, despite repeated mailings, calls and site visits, it was not possible to obtain information. In two cases, when the occupant was contacted he or she refused to provide information. In 58 cases it was determined that the location is currently vacant. However, it should be pointed out that in a number of cases, although the site is currently vacant, information could be obtained from a previous occupant or the landowner, and such information was included in the successful responses. All of the addresses where information could not be obtained are listed in in Appendix I.

A total of 1279 valid responses were obtained to the survey. As questionnaires were received, the responses were entered in a Microsoft Excel worksheet (CompAns3.xls). When the data collection was complete, the results were tabulated, and the findings of the analysis are discussed below.

Survey findings.

A summary of the key findings of the survey is shown in Box 1.

Box 1. Key Survey Findings.		
Question Number 1: <i>Do you use well water?</i>		
Finding	Number	Proportion of Total
Yes	83	6.5%
No	1,196	93.5%
Total number of locations surveyed	1,279	100.0%
Question Number 2: <i>Is there a well located on this property which is not currently in use?</i>		
	Number	Proportion of Total
Yes	91	7.1%
No	1,083	84.7%
Don't know	105	8.2%
Total number of locations surveyed	1,279	100.0%

As Box 1 shows, 83 (6.5 percent) of the 1279 locations surveyed reported using well water, whereas the remainder (1196, or 93.5 percent) do not use well water.

Question 2 asked whether or not the site had a well which is no longer in use. Of those surveyed, 91 (7.1 percent) reported that they do have wells which are no longer in use,

YRRA Receptor Survey

105 (8.2 percent) indicated that they do not know whether or not there is a well no longer in use, and 1083 (84.7 percent) reported that there is no well which is no longer in use.

A list of well users, with a summary of their responses to questions about well water use and well characteristics is provided in Table 1. Addresses, telephone numbers and names of contact persons are also included in the Table. Each location reporting well use is designated by a unique number (Well#) ranging from 1 to 83. However, a review of the table indicates that six of these sites (#1, #43, #46, #66, #70 and #75) reported having more than one well. In total, the 83 sites account for a total of 91 wells.

The wells listed in Table 1 have also been indicated on a map which is submitted herewith as an attachment. Each well is represented by a dot with its corresponding Well#. The three wells operated by the Union Gap Water Department (#43) are found in three separate locations, and thus the number 43 appears by three separate dots on the map.

Table 1 indicates that in response to question no. 4 (*What percentage of your total water supply comes from well water?*), more than a third of the users (32 sites / 39 percent) reported depending entirely (100 percent) on the well as a source of water, while others reported reliance as low as five percent.

In response to question no. 6, a significant proportion of the well users (24 sites / 29 percent) were not able to provide any information on the rate of use, whereas others indicated "little" or very low volume rates. Others (#35 and #43) reported using over one million gallons per month. Several users reported that they use their wells only seasonally, particularly during the summer for irrigation and watering lawns.

In response to question no. 8, about one third (28 sites / 34 percent) reported that their well had been tested within the past year, and 20 of these said that they would be able to provide information about the test results.

In answer to question no. 9, only 43 (52 percent) of the respondents were able to provide any information about the construction characteristics of their wells. However, some of those who do not know their well's characteristics were able to provide the name of a landlord, well driller, or other person who might know such information.

Appendix III provides more detailed information on the responses of each of the 83 well users. It includes names and addresses (where available) of additional sources of information; and it also shows more complete information on water use and well characteristics (where available) than is shown in Table 1.

YRRA Receptor Survey

Uses of Water.

Question 5 of the survey requested information on the uses of well water. Box 2 summarizes the responses to this question. The most common use reported was for drinking and other domestic purposes (42 users / 51 percent), although watering lawns (41 users / 49 percent) was a close second. Miscellaneous other uses accounted for 23 percent. Food processing and other manufacturing, watering livestock, and irrigation of crops each accounted for ten percent, whereas use for heating purposes accounted for only eight percent. The total of the above adds to more than 100 percent because many respondents reported multiple uses.

Box 2. Answers to Question #5:		
<i>What are the purposes for which you use well water?</i>		
Purpose	Number Responding YES	As Proportion Of the 83 Reporting Well Use
5a. Food processing or other manufacturing.	10	12%
5b. Drinking/domestic purposes.	42	51%
5c. Watering livestock.	10	12%
5d. Irrigation of crops.	10	12%
5e. Watering lawn.	41	49%
5f. Heating (including geothermal).	7	8%
5g. Any other uses (as specified).	19	23%

More details on the "other" uses of well water (Question 5g) are provided in Table 2. Of the 19 reporting such uses, 13 (63 percent) listed some type of washing or cleaning use, and most of these entailed washing cars or other vehicles. Four respondents (21 percent) reported various kinds of refrigeration applications. The remaining two miscellaneous uses were photo developing and "dewatering" (pumping groundwater to keep tanks from floating).

A description of the ten reported "food processing or other manufacturing" uses of water is shown in Table 3. These include use (washing, etc.) in fruit packing (four users), mixing with seasonings in meat packing (two users - related companies, different wells), cooling water (one), preparation of soda fountain beverages (one), supply of water to cookers and coolers in fruit canning (one), and mixing with syrups and concentrates in beverage canning and bottling (one).

Information on Wells not in Use.

Table 4 provides a listing of names and addresses of the 91 sites which reported that they have one or more wells no longer in use. Of these, 35 sites (38 percent) also reported that they do currently use well water and are thus also listed in Table 1. Table 4 also lists the 105 respondents who are not certain whether or not there is a well which is no longer in use on the property.

YRRA Receptor Survey

Location of Wells by Geographic Sub-Area.

Of the 83 sites reporting the use of well water, 27 sites (33 percent) are located in the city of Yakima in the YRRA, while the majority (53 sites / 67 percent) are located in the City of Union Gap in the YRRA and in Area 1. **Box 3** provides a more detailed description of how the wells are distributed geographically. For purposes of this delineation by geographic sub-area, the entire survey area was divided into eight sub-areas, as shown in the box.

Box 3. Location of Wells by Sub-Area					
Sub-Area Name	Number of Wells in Sub-Area	Sub- Area Bounded by Street or Other Limit:			
		On North	On West	On South	On East
Yakima Northwest	5	W. Lincoln Ave.	Ninth Avenue	W. Nob Hill Blvd	NP Railroad Tracks
Yakima Northeast	4	E. Lincoln Ave.	NP Railroad Tracks	Pacific Avenue	Fourth Street
Yakima Southwest	10	W. Nob Hill Blvd	S. Ninth Avenue	W. Washington Ave.	NP Railroad Tracks
Yakima Southeast	8	Pacific Avenue	NP Railroad Tracks	E. Mead Ave.	Tenth St. & I-82 Fwy.
Union Gap West	16	W. Washington Ave.	S. Third Avenue	Ahtanum Blvd.	NP Railroad Tracks
Union Gap East	23	E. Mead Avenue	NP Railroad Tracks	Ahtanum Blvd.	I-82 Freeway
Area-1 West	11	Ahtanum Blvd.	S. Third Avenue	Rose Street	NP Railroad Tracks
Area-1 East	6	Ahtanum Blvd.	NP Railroad Tracks	Rose Street	I-82 Freeway

Of the eight sub-areas, the one designated Union Gap East has the greatest number of wells (23 / 28 percent of the 83 reporting well water use). This is followed by Union Gap West (16 wells / 19 percent), Area 1 West (11 / 13 percent) and Yakima Southwest (10 wells / 12 percent).

Table 5 provides a listing of the names and addresses of the wells in each geographic sub-area.

A copy of the final data base (CompAns3.xls) is enclosed as an attachment. It contains the complete responses to all questionnaires and it also contains the tabulated results shown here. Fitch & Marshall, Inc. is also prepared to make additional tabulations and summaries upon request.

QUESTIONNAIRES, LETTERS AND POSTCARDS

USED IN SURVEY MAILING

SURVEY OF WELL (GROUND WATER) USE IN THE YAKIMA AREA - page 2

6. What is the approximate rate at which you use the well water? _____
(For example, "50 gallons per hour", or "36,000 gallons per month".)
7. Do you pre-treat the water in any way before using it? YES NO
8. a) Has your well water been tested in any way during the past five years?
 YES NO DON'T KNOW
- b) If answer to 8a) is YES, can you provide us with a copy of the test results, or can we contact you to learn about the results? YES NO
9. a) Do you know the construction details for the well? YES NO
If answer is YES, please state the following:
- b) Depth of well _____ ft.
- c) Depth to groundwater _____ ft.
- d) Depth of well screen: from _____ ft. to _____ ft.
- e) If you do not have this information, could you provide us with the name of another person who might have it? (For example, the landowner, former landowner, well driller, etc.)
(Name and address) _____
_____ Phone number _____
- Landowner Former landowner Well driller Other
10. Any other comments or related information: _____

NAME of person filling out questionnaire _____ Phone number _____

THANK YOU FOR COMPLETING THIS QUESTIONNAIRE. PLEASE USE THE ENCLOSED BUSINESS REPLY ENVELOPE AND RETURN IT TO:

FITCH & MARSHALL, Inc., P.O. Box 583, Yakima, WA 98907

If you have any questions about the questionnaire, please call Fitch & Marshall at (509) 453-2354.

PLEASE NOTE:

GROUND WATER is water beneath the surface of the ground which is the source of **WATER FOR WELLS**. Most businesses and residences in the Yakima Area obtain their water from the city, the county, or from private water companies, and not from wells. However, some people may be using water from wells located on their property and not realize it. Furthermore, some properties may use water from both sources.

If you are unsure about your water source or about the answers to some of the questions below, it may be helpful to contact a landlord or former property owner to help in completing the questionnaire.

STATE OF WASHINGTON
DEPARTMENT OF ECOLOGY

15 West Yakima, Suite 200 • Yakima, Washington 98902-3401 • (509) 575-2490
7 October 1997

Dear Water User:

Protecting the quality of groundwater (well water) in Yakima is a matter of great importance to all of us. As you may know, many steps have already been taken to protect Yakima's groundwater. Additional studies are now underway to determine if any further steps are needed. As part of this effort, the Washington State Department of Ecology, working with a group of companies, is conducting a survey of groundwater wells in certain areas of Yakima. Your business or residence is within one of these areas.

Please take just a few minutes to fill out the enclosed survey questionnaire and return it in the postage-paid envelope to Fitch & Marshall, Inc., who have been hired to conduct the survey.

Even if you do not have a well or use well water (or if you are not sure you do), it is still important for you to fill out and return the questionnaire.

If you should have any questions about how to fill out the survey, Please do not hesitate to call Mr. Jim Fitch of Fitch & Marshall at (509)-453-2354.

Thank you for your cooperation and assistance.

Sincerely,

Rick Roeder
Project Manager

24 October 1997

Dear Water User:

About three weeks ago a questionnaire about groundwater (well water) was mailed to you. As the Department of Ecology explained in the letter which accompanied the original mailing, the questionnaire is part of a survey which is being conducted to help ensure the continued protection of Yakima's groundwater. Since a completed questionnaire has not been received from you, we are providing another copy at this time.

Please take just a few minutes to fill out the enclosed questionnaire and return it to Fitch & Marshall, who have been hired to conduct the survey. A postage-paid envelope has been enclosed.

Even if you do not have a well or use well water (or if you are not sure you do), it is still important for you to fill out and return the questionnaire.

If you should have any questions about how to fill out the survey, Please do not hesitate to call Mr. Jim Fitch of Fitch & Marshall at (509)-453-2354.

Thank you for your cooperation and assistance.

Sincerely,

James B. Fitch
Survey Director

DEAR WATER USER:

WITHIN THE NEXT FEW DAYS YOU WILL RECEIVE A SHORT SURVEY QUESTIONNAIRE ABOUT GROUNDWATER (WELL WATER), TOGETHER WITH AN EXPLANATORY LETTER FROM THE WASHINGTON STATE DEPARTMENT OF ECOLOGY. THIS SURVEY IS IMPORTANT. WHEN IT ARRIVES, PLEASE TAKE A FEW MINUTES TO FILL IT OUT AND RETURN IT AS QUICKLY AS POSSIBLE.

IF YOU HAVE ANY QUESTIONS ABOUT THE QUESTIONNAIRE, PLEASE CONTACT:

JIM FITCH at FITCH & MARSHALL, Inc., (509) 453-2354.

THANK YOU.

RICK ROEDER
WASHINGTON STATE DEPARTMENT OF ECOLOGY

DEAR WATER USER:

WITHIN THE PAST WEEK YOU SHOULD HAVE RECEIVED A SHORT QUESTIONNAIRE ABOUT GROUNDWATER (WELL WATER). AS WAS EXPLAINED IN THE ACCOMPANYING LETTER FROM THE DEPARTMENT OF ECOLOGY, THE SURVEY IS IMPORTANT FOR THE CONTINUED PROTECTION OF YAKIMA'S GROUNDWATER.

IF YOU HAVE NOT ALREADY DONE SO, PLEASE TAKE A FEW MINUTES TO FILL OUT THE QUESTIONNAIRE AND RETURN IT TO US RIGHT AWAY.

IF YOU DID NOT RECEIVE THE QUESTIONNAIRE, OR IF YOU HAVE ANY QUESTIONS ABOUT HOW TO FILL IT OUT, PLEASE CALL US.

THANK YOU.

JIM FITCH
FITCH & MARSHALL, Inc.
(509)-453-2354

ESTIMADO USUARIO DEL AGUA:

HACE UNA SEMANA UD. DEBÍA HABER RECIBIDO UN CUESTIONARIO CORTO SOBRE EL AGUA DE SUBSUELO (AGUA DE POZO). COMO EXPLICABA LA CARTA INCLUIDA DEL DEPARTAMENTO DE ECOLOGIA, EL ESTUDIO ES MUY IMPORTANTE PARA MANTENER LA PROTECCIÓN DEL AGUA DE SUBSUELO.

SI TODAVÍA NO HA LLENADO EL CUESTIONARIO, POR FAVOR, TOME ALGUNOS MINUTOS AHORA PARA HACERLO Y DEVOLVERLO LO MÁS PRONTO POSIBLE.

SI NO RECIBIÓ UN CUESTIONARIO, O SI TIENE PREGUNTAS SOBRE COMO RELLENARLO POR COMPLETO, LLÁMENOS POR TELÉFONO, POR FAVOR.

MUCHAS GRACIAS.

JIM FITCH
FITCH & MARSHALL, Inc.
(509)-453-2354

ESTIMADO USUARIO DEL AGUA:

DENTRO DE LOS PRÓXIMOS DÍAS RECIBIRÁ UN CUESTIONARIO CORTO SOBRE EL AGUA DE SUBSUELO (AGUA DE POZO), JUNTO A UNA CARTA DE EXPLICACIÓN DEL DEPARTAMENTO DE ECOLOGÍA DEL ESTADO DE WASHINGTON. EL CUESTIONARIO ES IMPORTANTE. CUANDO LLEGA, POR FAVOR, TOME ALGUNOS MINUTOS PARA LLENARLO Y DEVOLVERLO LO MÁS PRONTO POSIBLE.

SI TIENE PREGUNTAS SOBRE EL CUESTIONARIO, SE PUEDE LLAMAR A:

JIM FITCH de FITCH & MARSHALL, Inc., (509) 453-2354.

GRACIAS.

RICK ROEDER
DEPARTAMENTO DE ECOLOGÍA DEL ESTADO
DE WASHINGTON

INVESTIGACIÓN SOBRE EL USO AGUA DE POZO (AGUA DE SUBSUELO) EN YAKIMA

COMENTARIO EXPLICATIVO: EL AGUA DE SUBSUELO es el agua debajo el superficie del suelo y es el FUENTE DE AGUA PARA POZOS. La mayoría de negocios y domicilios en Yakima consiguen su agua de la ciudad, el condado o de empresas particulares en vez de pozos. Sin embargo, algunas personas pueden estar ocupando agua de pozo en su propiedad sin darse cuenta. Generalmente, si recibe una cuenta de agua de la ciudad o otro autoridad de agua cada mes, no está ocupando agua de pozo. No obstante, es posible que algunos propiedades ocupan agua de ambos fuentes. Si tiene dudas sobre su fuente de agua, podría ser útil hacer contacto con el dueño de casa o propietario anterior.

El cuestionario corresponde a la empresa o el domicilio localizado en la dirección anotado en la etiqueta abajo. Si el nombre de la empresa o el inquilino está malo, o si otro comentario de explicación es necesario, por favor, haga las correcciones o anote datos adicionales en el espacio hacia la derecha.

FIJARSE: Si es una empresa que funciona en varios locales contiguos con diferentes edificios y/o fuentes de agua múltiples, por favor, sacque fotocopias del formulario y LLENAR UN CUESTIONARIO PARA CADA LOCAL Y/O FUENTE DE AGUA.

Nombre de la persona que está llenando el cuestionario _____

Número de teléfono _____

Chequear o llenar la respuesta correcta:

1. ¿Usa Ud. agua de pozo? SÍ NO NO SE SABE

(Si su respuesta es NO, o NO SE SABE, avance al número 8.)

Si Ud. contestó SÍ al número 1 siga abajo:

2. ¿Qué es la tasa en que usa agua de pozo? _____
(Por ejemplo, "50 galones por hora" o "36.000 galones por mes.")

3. ¿Qué porcentaje de su suministro total proviene del agua de pozo y que porcentaje proviene de otras fuentes? _____
(Por ejemplo, "100% del pozo," or "50% del pozo y 50% de la ciudad," etc.)

4. ¿Por cuales fines usa Ud. agua de pozo?

- | | | |
|---------------------------------------|----|----------|
| • Procesamiento o fabricación | SÍ | NO |
| • Beber/fines domésticos | SÍ | NO |
| • Dar beber a la ganadería | SÍ | NO |
| • Regar el césped | SÍ | NO |
| • Calificación (incluyendo geotermal) | SÍ | NO |
| • Otros usos (favor de especificar) | SÍ | _____ NO |

5. Si el agua de pozo se usa para agua de procesamiento, ¿Qué tipo de proceso es?

INVESTIGACIÓN SOBRE EL USO DE AGUA DE POZO (AGUA DE SUBSUELO) EN YAKIMA-
página 2

6. ¿Hace Ud. algún tipo de pre-tratamiento antes de usar el agua? SÍ NO

7. ¿Ha hecho algún tipo de prueba de su agua de pozo durante los últimos cinco años? SÍ NO

• Si contestó SÍ, tiene una copia de los datos de la prueba? SÍ NO

8. ¿Tiene los detalles de la construcción del pozo? SÍ NO

Si contestó SÍ, favor de llenar lo siguiente:

- Profundidad del pozo _____ pies
- Profundidad del agua de subsuelo _____ pies
- Profundidad de la malla del pozo: de _____ pies a _____ pies

Si no tiene esta información, ¿de dónde podemos obtenerla?

(Nombre y dirección/teléfono) _____

9. ¿Hay un pozo en esta propiedad (dirección de la calle está en página 1) que no está ocupado en este momento?

SÍ NO NO SE SABE

10. Si no sabe si ocupa agua de pozo, o si no sabe como contestar el número 8, ¿quién sabría? (por ejemplo, el propietario o inquilino anterior, etc.)

(Nombre y dirección /teléfono) _____

11. Otro comentario o información relacionado:

CUANDO UD. HA RELLENADO EL CUESTIONARIO POR COMPLETO, POR FAVOR, DEVUÉLVALO A FITCH & MARSHALL, Inc. (P.O. Box 583, Yakima, WA 98907) EN EL SOBRE CON CORREO PAGADO. Llame a Fitch & Marshall a (509) 453-2354 si tiene preguntas.

DOE Letterhead

1 de Noviembre, 1997

ABC Propiedades y Seguro
0000 East Yakima Avenue
Yakima, WA 98901

Estimado Usuario del Agua:

Hace casi tres semanas le mandamos un cuestionario sobre el uso de agua de subsuelo (agua de pozo). El cuestionario es parte de una investigación continua cuyo propósito es asegurar la protección del agua de subsuelo en Yakima. Como no hemos recibido un cuestionario relleno por completo de Ud., le estamos enviando otra copia.

Por favor, haga el bondad de tomar algunos minutos para llenar el cuestionario incluido y devolverlo a Fitch & Marshall Inc., la empresa contratado para llevar a cabo la investigación. Hay un sobre con correo pagado incluido para devolver la información.

Aunque Ud. no tiene un pozo ni usa agua de pozo (o no está seguro si tiene un pozo o no), de todas maneras es muy importante que obtengamos esta información.

Si tiene cualquier pregunta sobre como llenar el cuestionario es posible llamar a Sr. Jim Fitch de Fitch & Marshall a (509) 453-2354 o Sr. Rick Roeder del Departamento de Ecología del Estado a (509) 454-7837.

Muchas gracias por su colaboración y asistencia.

Sinceramente,

Rick Roeder
Gerente del Proyecto

DOE Letterhead

8 de Octubre, 1997

ABC Propiedades y Seguro
0000 East Yakima Avenue
Yakima, WA 98901

Estimado Usuario del Agua:

La protección del agua de subsuelo (agua de pozo) es un asunto de mucha importancia para todos en Yakima. A lo mejor Ud. ya sabe que se han tomado muchas medidas para proteger el agua de pozo en Yakima. Se han comenzado estudios adicionales para determinar si será necesario tomar otras medidas. Como parte de este proceso el Departamento de Ecología del Estado de Washington está trabajando junto a un grupo de empresas para llevar a cabo un estudio del agua de pozo en ciertos lugares en Yakima. Su empresa o domicilio está dentro de uno de estos áreas.

Por favor, haga el bondad de tomar algunos minutos para llenar el cuestionario incluido con esta carta y devolverlo en el sobre con correo pagado a Fitch & Marshall, Inc., la empresa que está contratado para hacer el estudio.

Aunque Ud. no tiene un pozo ni usa agua de pozo (o no está seguro si tiene un pozo o no), todavía es muy importante que Ud. llene y devuelva el cuestionario.

Si tiene cualquier pregunta sobre como llenar el cuestionario se puede llamar a Sr. Jim Fitch de Fitch & Marshall a (509) 453-2354 o Sr. Rick Roeder del Departamento de Ecología del Estado a (509) 454-7837.

Muchas gracias por su colaboración y asistencia.

Sinceramente,

Rick Roeder
